Md. Shamsul Alam

Director General

Bureau of Manpower, Employer & Training (BMET)

89/2, Kakrail, Dhaka-1000.

Subject: Submission of Expression of Interest for *“International Standard Training Collaboration Program”*.

Dear Sir,

Good day. The Bureau of Manpower, Employment and Training (BMET) is a nationally recognized government organization for their initiatives in areas of supervising the recruitment process in migration and overseas employment, protecting the welfare and rights of migrant workers, creating employment opportunities through technical training, and enhancing skill development opportunities. BMET supports the Government of Bangladesh in providing appropriate technical training based on the needs of the world market, increasing the overseas employment opportunities of the aspiring people through skill development programs and achieving the Sustainable Development Goals.

We, the Bangladesh Association of International Recruiting Agencies (BAIRA) a government registered Trade Organization (TO), are working with a reputation for finding a global manpower market and contributing to national GDP. The BAIRA members are engaged in providing international standard training to the people and creating employment opportunities in different countries. To cater to the requirements of the valued overseas employers, BAIRA is working on various training programs through the training centers of their 1200 members. The Project Management Unit (PMU) of BAIRA is working for the socio-economic development of the return migrants and new employment opportunities also. The demand for new trades from various buyer countries is increasing day by day. Important trade courses like nursing, midwifery, caregiving, babysitting, elderly care along with other 13 regular relevant trades are highly demanded in Europe, the Middle East, Asia, and other developed countries as well. Your team is doing a lot of hard work on these issues and we want to join with your team in this regard with our available logistical and technical resources.

We are interested to collaborate on different kinds of projects and training programs currently facilitating by BMET with due permission of your technical team. A proposal is attached herewith for your reference. Please review our intention towards achieving sustainable development of the country.

We are looking for your early response. If possible, we can arrange a meeting for further discussion with a full proposal. Thanks in advance for your time and consideration.

Best Regards

Shamim Ahmed Chowdhury Noman

Secretary General, BAIRA
